FOURTH ANNUAL

SALE CATALOGUE

PARKDALE SHORT-HORNS

AT HOME—JUNE 15, 1904.

C. D. BELLows, OWNER.

MARYVILLE, MO.

ANNOUNCEMENT

THE SHORT-HORN COW is preeminently the farmers' cow. This fact was never more apparent than now. The farmer desiring to keep pace with the times, must of necessity strive to improve his cattle stock if he expects to be able to breed and feed cattle that will yield a profit on farm lands at the present values. How to make our farms pay is a business question that confronts every one interested in the present, as well as those seeking means and methods that will insure profitable returns in the future. The demand for better stock is increasing, and we think now is a good time to start a herd, or to improve herds already established. As the farmer becomes convinced that it pays to use pure bred bulls, the demand for better quality will increase, making it plain that the breeder of pure bred herds will experience a growing demand at remunerative prices. Again we repeat, now is a good time to prepare for the future.

Twenty Years' Experience. I have been interested in breeding Short-Horns for about twenty years, and my faith in this grand old, time-tried breed, was never stronger. They have not only made me money, but also have been the means of giving me the satisfaction one finds in a work that helps others. It is scarcely necessary for me to say that I expect to breed Short-Horns as long as I live. I am training my sons so that they will be able to take up the work where I leave off.

My Fourth Annual Sale. In announcing this my fourth annual sale from the Parkdale Herd I wish to say that I have selected a class of cattle that for individual merit and breeding will, I think, creditably represent the herd and the work I am doing as a breeder. In this sale I am carrying out my original plan to offer nothing, at my annual sales, but what is believed to be sound, straight, and all right. This is the only method by which the confidence of my customers, and the public in general, can be held. Barren animals, doubtful breeders, and the like, are kept on the farm in hopes of returning to usefulness, or are sent to the butcher.

About the Cattle. The 50 head listed for this sale, include several bulls of extra good Scotch breeding, and individually good enough to suit anybody. Particular attention is called to lots 1 and 2 as being bulls that I can especially recommend as being of "herd header" quality. These bulls are correctly described in the notes appearing under the pedigree of each. There are also other good bulls listed. The females are probably the best lot ever listed from Parkdale. The cows have calves at foot or are well forward in calf to Hampton's Best, Gloster, Victorallan or Invincible Hampton. The heifers by Gloster, Hampton's Best, and others, are an attractive lot, just the kind I am proud to invite breeders, customers, and my friends to see. They are a grand lot of heifers for breeding purposes, and a few are of showyard character. Should there be any animal in the sale with any known defect or blemish, it will be pointed out, but no guarantee will be given for future usefulness. Stock to be shipped will be loaded on cars free of charge, but will be at owners' risk as soon as bid off.

Wornall's Consignment. T. J. Wornall & Son, of Liberty, Mo., owners of the well known Grassland herd, at the head of which stands the great bull, Imp. Conqueror, are contributing several head to the sale, and I take great pleasure in directing attention to them, as they appear in the catalogue as consigned by them. The Messrs Wornall have been so eminently successful as breeders and exhibitors as to require no introduction at this time.

Sale at the Farm. The sale will be held at Parkdale farm, located near the city limits of Maryville. By holding my sale at home my friends and customers will not only have an opportunity of seeing the herd bulls and the working herd, but will also be given the advantage of seeing the conditions under which Short-Horns are bred and reared at Parkdale. The show herd in preparation for St. Louis will also be on exhibition. Ample accommodations will be provided to convey all from town to farm and return, and no pains will be spared to make your visit pleasant and profitable whether you wish to buy or not. All parties attending the sale from a distance will be my guests at the Linville hotel, where I have instructed Mr. G. W. Fink, the proprietor, to give you the best he has, and under no circumstances to accept any money from you. Lunch will be served on the ground at noon, and the sale will open promptly at 1:00 p. m.

Location of Maryville. Maryville is easily accessible by rail from all directions. It is on the Wabash, 90 miles southeast of Omaha, and 170 northeast of Moberly, Mo. Also on the Burlington, 60 miles south of Creston, Iowa, and 40 miles north of St. Joseph, Mo. Parties coming over Chicago and Great Western change at Conception, which is 14 miles east of Maryville on the Wabash. See time cards elsewhere in this catalogue.

HAMPTON'S BEST, present chief stock bull at Parkdale, whose pedigree and picture are herewith presented is a bull for which I feel I am justified in making some strong claims. He was purchased as a calf, from C B Dustin & Son, at a long price, at which time I regarded him not only the best calf by Merry Hampton on the farm, but also the best calf of his age of the breed I had yet seen. His development has fulfilled my most sanguine expectations, and as a breeder his ability to transmit his individual excellence to his offspring, has been amply proven. Individually he is a bull of wonderful substance, extraordinary constitutional vigor and unsurpassed digestive and feeding qualities. He is a great natural flesh-carrier, and for uniformity and thickness in conformation is practically beyond criticism. Some idea of his constitutional vigor may be gained from the fact that, when less than two years old, his heart girth measurement was seven feet and eight inches, and his weight 1760 pounds. A careful study of his pedigree, appearing herewith, will be sufficient to convince any student of Short-horn breeding that through his veins course much of the most prominent and best known blood that for a quarter of a century has held the popularity of the best Cruickshank Short-Horns in America. He comes to his individual excellence by inheritance, and it is confidently believed that he is destined to become one of the truly great sires of the breed. I have listed for this sale several choice heifers by him, some good cows with calves at foot by him, and quite a number of cows and heifers bred to him. With the first of his get shown last year I was awarded the "Breeders' Trophy," offered by American Short-Horn Breeders' Association, at the International at Chicago, 1903, for four best calves bred by exhibitor. At both the International and the American Royal, 1903, I won first on calf herd, sired by Hampton's Best, also several important group and class prizes, altogether making a list of winnings seldom, if ever, equaled on the get of any two-year-old bull, the numbers and strength of the competition considered. A group picture of his get will be found in this catalogue. One of these heifers, the red one in back ground, will be sold in this sale.

NOTE—Invincible Hampton, is the product of what we consider most excellent breeding. He is assistant herd bull to Hampton's Best and it is no reflection upon the latter to say that some very good judges have expressed the opinion that he is quite his equal and in some respects superior. He is one of those remarkably smooth turned, perfectly balanced, meaty, well fashioned bulls that the critical judge finds trouble in faulting. He is a bull of show yard character, whose symmetry and uniform conformation suggests that he must make a good stock bull. We expect to show him at St. Louis this fall. Several cows and heifers in the sale are bred to him.

IMP. MERRY HAMPTON 132572—It is generally conceded that Imp Merry Hampton is one of the greatest Shorthorn bulls on the American continent. He was selected and imported as the best young bull of his age in Great Britain, in 1898 and was landed at the farm of C B Dustin & Son, at a cost of \$2,000. His get have been in strong demand, and the substance, flesh and finish of his offspring will undoubtedly continue to hold them in popular favor. He was bred by Mr. Duthie from the celebrated Marr-Missie tribe and sired by the Uppermill Princess Royal bull, Prince Frolic 132571, by the great William of Orange, son of Roan Gauntlet; Mademoiselle 6th, the dam of Merry Hampton, was a daughter of the great and only Field Marshall 64984; Mademoiselle 5th by Ventriloquist, of the Cruickshank tribe and sired by Roan Gauntlet.

LOVELY OF GREENDALE 3D—was the dam of the junior champion heifer shown by C C Norton at the International 1901. She belongs to the Cruickshank Lovely family which came originally from the beautiful cow Marion by Anthony (1640) that had been bought in England from Mr. Lovell of Edgecott. The Lovelys were well thought of by Mr. Cruickshank, and he put in service at Sittyton the bull Lord Lansdown (29128); a grandson of Lovely 6th. (Sanders' "Short-horn Cattle"). Imp Lovely 25th was a show cow imported by the Kentucky Importing Co. in 1883.

BARMPTON ROYAL, a fine bull of the Cruickshank, Barmpton Rose family, got by Imp. Salamis 110075, out of Barmpton's Pride by Imp. Prince Bishop (58170); Imp. Barmpton Primrose by Viking (48873); Barmpton Snowdrop by Roan Gauntlet (35284).

GOLDEN PRINCE, a thick-meated bull of the Cruickshank Brawith Bud family, got by Imp. Leyburn 60248 out of Golden Rose by Imp. Knight of the Rose, tracing to Golden Pippin by Champion of England (17526).

IMP. FAVORITE, got by Border Chief (37834) out of Lady Mysie 3d by Macbeth (37625); etc. Imp Favorite was a fine individual, bred from prize winners.

GENERAL WINDSOR, a roan bull of Booth blood used by Mr. Cruickshank, got by Windsor Fitz-Windsor (25458) out of Rose of Assam by Lord Frederick (22156).

MASTER OF ARTS, a roan of Mr. Cruickshank's breeding, got by Champion of England (17526) out of the Gem by Lord Raglan (13244).

.....	Carnegie Red Bul	329	Mr. Carnegie	
.....	Monarch, bred by Mr. Shaftoe of Whitworth.			

NOTE—VICTORALLAN, we believe, is the best Scotch bull to be offered this season, at either public or private sale. He combines outstanding individual merit with extra good breeding, as a study of his pedigree will show. He is a solid red, with good, short, wide neck, drooping horn, well crested neck, good style, extra good over crops, equally good around the heart, very strong, wide, even back, well sprung ribs, has extra length, width and levelness of hind quarter, and in thickness and fullness of thigh, is unsurpassed. He carries a deep, thick, round body on the shortest of legs, stands straight on his legs set squarely under the four corners of his body, has extra good bone and best of all comes to his individual merit by inheritance, is a good server, sure breeder and has a perfect disposition. He is a good show bull in any company and is bred well enough to creditably head any herd in America.

IMP. VICTORIA'S COUNT—is the only bull that seriously threatened the great Choice Goods in his undefeated show yard career at the head of the Tebo Lawn herd 1902. Individually we consider him the best bull of the Cruickshank Victoria tribe of which we know. He is of the right stamp being of the low-legged, deep, thick fleshed sort. His sire Bapton Javelin 141831, bred by J D Willis, was a great show bull and sire and sold for a long price for exportation to South America. Bapton Javelin's dam was by Commodore 96849, bred by A Cruickshank. The dam of Victoria's Count was Victoria Countess, said to be the best cow in the Ruddington herd. She was an own daughter of that most celebrated show bull and sire Count Lavender 132575, reputed to be the most successful breeding bull used in Great Britain for many years. He was the sire of Mr. E. S. Kelly's show cow Imp. Bapton Pearl that is the dam of the great bull White Hall Sultan; also the sire of Count Victor that sired Mr. Bothwell's Imp. Nonpareil Victor. Below Count Lavender the next four sires are, Gondolier, Roan Gauntlet, Barmpton Prince and Champion of England, all bred by A Cruickshank.

BARMPTON M—was a Scotch bull of the well known Mysie family. He was got by Barmpton Hero 58813, bred by the Hon. John Dryden and by him considered the best bull he ever bred. The dam of Barmpton Hero was Mr Dryden's Favorite cow Imp. Mimulus, bred by A Cruickshank and sired by Champion of England, that greatest of all Cruickshank bulls.

DAISY OF STRATHALLAN 13TH—the dam of Victorallan, was a prize winner and comes from a family of prize winners. She is an exceptionally good cow, being very large and a producer of calves that have sold for long prices. Her grand-dam Imp. Rose of Strathallan was a cow of great scale and substance, was a prize winner in Scotland and for five years in succession she or one of her daughters won the female championship at the Toronto exposition.

NOTE—HON. JOHN DRYDEN, Brooklyn, Ont., Minister of Agriculture, a successful breeder of Short-Horns and one of the earliest importers of cattle from Mr. A. Cruickshank's famous Sittyton herd, recently visited the Parkdale herd and when he saw Gloster he spontaneously remarked, "There is the image of Barmpton." Barmpton long stood at the head of the Sittyton herd and competent judges are agreed that he sired more good animals imported from Mr. Cruickshank's herd to America than any other one bull. He was the sire of Imp. Baron Victor, Imp. Lord Glamis, Imp. Germanica, Imp. Sarton Hero and a host of other celebrities.

MR. DRYDEN's expressed opinion of Gloster should be sufficient to recommend him to any thoughtful breeder. He comes from a family of Cruickshank cattle that we have bred for almost a quarter of a century. The foundation cow in our herd was Imp. Flora 17th. From her was produced some of our best cattle. Scottish Queen, the grand dam of Gloster was the highest priced cow in my father's dispersion sale in 1894. A bull, Scottish King, of this same family, also topped the bull end of the same sale. The family is noted alike for early maturity, easy fleshing and good milking qualities.

GLOSTER has always been in good hands, carefully handled, is in good breeding form, is very active, perfectly sound, full of vigor and has many years of usefulness ahead of him. He is a sire of demonstrated merit as will be fully demonstrated on sale day by a showing of his get, a few of which are in this sale. A part of our show herd, in preparation for the world's fair, are of his get.

GLOSTER is a bull of beautiful character and is distinguished for his good head, drooping horn, attractive carriage, smooth, uniform makeup from end to end, splendid spring of rib, long, level hindquarters and well filled thighs.

ROYAL GLOSTER belonged to the Cruickshank Duchess of Gloster family was used successfully in the herd of the late T R Westrope, was got by Imp. Ducal Crown 97149, out of Duchess of Gloster 2d by Commander 69556, tracing to Imp. Duchess of Gloster 22d by Barmpton Prince.

BONNIE SCOTT was got by Imp. and Exp. Hospodar out of the great producing cow Rosemary 4th by Imp. Burgomaster.

VALLEY CHAMPION was the best breeding bull that ever headed my father's Valley Home Herd. He was a show yard winner and a sire of winners. He was got by Canada's Pride 2d and out of Caroline the best and most profitable Cruickshank cow he ever owned.

NOTE—This is a splendid heifer of the Cruickshank Secret family. The females of this family are very prolific and this heifer has been bred to the grand young Scotch bull Victorallen, that is also one of the attractions of this sale. She is just in good breeding condition and should prove a money making investment to the breeder who secures her.

IMP BAPTON ADMIRAL—Is a red bull of great size and exceedingly rich in the blood of A. Cruickshank's own breeding. His dam and for seven generations on the maternal side were all bred by Mr. Cruickshank. His sire Bapton Victory (69910) a Cruickshank Victoria, was a winner of many prizes, and an own brother to the Champion Count Victoria, they both being sired by the great Count Lavender, one of the greatest of all the latter day Cruickshank bulls of Scotland. Bapton Admiral was imported especially for use on the herd of C C Norton and his dam Globe Flower is said to be one of the best cows in Great Britain. She is also the dam of Bapton Glory one of the stock bulls used successfully by W S Marr.

SUNLIGHT 3D—A Cruickshank of the noted Secret tribe which produced Scottish Archer and many other celebrities, and which has the reputation of producing great flesh carriers and milkers as well. She is out of the same cow as Sunlight 4th, the 3d prize senior yearling heifer at the International Exposition in 1901.

IMP AUTUMN GLADE—by the famous Cumberland—is a valuable cow of Mr. Cruickshank's own breeding, and attention is particularly asked to the exceeding richness of her pedigree—the line of Sittyton celebrities on top being ample evidence of the value of this pedigree. This is a family that has produced many grand Short Horns.

April 12, 1904, red c. c. by Hampton's Best 170818.

NOTE—This cow is a grand breeder. One of her calves was in my show herd at Chicago last Dec., winning 1st for best calf herd, in the strongest competition imaginable. This same calf, Hampton's Princess, was selected by B. O. Cowan, as one of the two best calves to be donated by the Central Short-Horn Breeder's Association to the Convention hall committee of St. Joseph, Mo. This cow has a red heifer calf at foot, by Hampton's Best, that is a full sister to Hampton's Princess. This will be a good pair to buy and keep as the foundation of a herd or to start a new family. They combine Scotch and Bates blood in the most effectual manner.

CHIEF VIOLET 4TH, pure Cruickshank of the Violet tribe, by Scottish Chief 89317, dam Rosedale Violet 2d by Imp Chief Justice 73256, grand dam Imp. Marsh Violet, by Pride of the Isles (35072). The fact that Mr. Cruickshank owned and bred this family for a period of over fifty years is sufficient evidence that he considered them among the best in the Aberdeenshire herd.

CRYSTAL WATERLOO, Bates' celebrated Waterloo tribe, was by Winsome Duke 3d 72209, out of Imp. Waterloo Duchess 4th, (Vol. 26, p. 1218), by Rowfant Duke of Oxford (43926), Imp. Waterloo Duchess 4th, bred by Rev. J. J. D. Jefferson, Thicket Priory, York, England, and was imported in 1880 by the late Col. H. M. Vaile of Independence, Mo. Col. Vaile sold several of this family, both males and females, at from \$500 to \$1000 each. Crystal Waterloo was purchased from Col. Vaile in 1890 by J F Finley and used on the Crystal Springs Herd for several years with pronounced success.

GOLDSTICK—A large red bull got by the Cruickshank bull Double Lavender 11503, got by Lavender Prince 87513, out of Imp. Lavender 51st by Gondolier 98287.

LAVENDER PRINCE was bred by W. A. Harris, got by Imp Prince President 77023, dam Imp. Linwood Lavender by Chancellor, Imp Lavender 34th by Roan Gauntlet.

CHIEF VIOLET 4TH.—“Cruickshank's Violet tribe” was by Scottish Chief 89317, dam Rosedale Violet 2nd Vol. 34, by Imp Chief Justice 73256, grand dam Imp. Marsh Violet, bred by A. Cruickshank of Sittyton, Aberdeenshire Scotland. Was imported by J. I. Davidson of Balsam, Ontario, Canada, who was the most discriminating importer on the American continent. The fact that Mr. Cruickshank owned and bred this family for a period of fifty years, we think, is abundant evidence that he held this family in very high esteem.

CRYSTAL WATERLOO.—“Bates' celebrated Waterloo tribe” was by Winsome Duke 3d 72209, out of Imp. Waterloo Duchess 4th Vol. 26, P. 1218, by Rowfant Duke of Oxford (43926), Imp. Waterloo Duchess 4th, bred by Rev. J. J. D. Jefferson, Thicket Priory, York, England, and was imported in 1880 by the late Col. H. M. Vaile, of Independence, Mo. During the late great depression in Shorthorn values, Col. Vaile sold several of this family, both males and females at from \$500 to \$1000 each. Crystal Waterloo was purchased from Col. Vaile in 1890 and used on the Crystal Spring Herd for several years.

Dec. 5, 1903, red c. c. by Gloster 137952.

NOTE—This cow belongs to one of my most valuable breeding families. They are very prolific and are uniformly producers of good stock. Hampton's Model, first prize bull calf at the International last Dec., is of this same family. I wish to recommend this grand cow to the attention of careful breeders and buyers. She is an excellent individual, a good breeder and is safe in calf to Invincible Hampton, a half brother to Hampton's Best, that I expect to show at the World's Fair at St. Louis.

COLUMBIAN LORD, pure Cruickshank, was by Imp Sovereign Lord 153700 out of Clara Miller, by Imp Red Emperor 51958; Clara Glamis, by Imp. Lord Glamis 48192; Clarence, by Imp. Baron Surmise 45933, and so on to Imp Columbia, by Lord Lancaster, own son of the celebrated Champion of England (17556).

VALLEY CHAMPION, a pure Cruickshank, bred and used by F. Bellows & Sons. As a calf he was the champion winner over all beef breeds at the Ia. State Fair. He was a bull of substance and wonderful fleshing qualities, and as a uniform breeder of high class stock had few equals. That his blood is breeding on is evidenced by the high character and quality of his descendants, even to the third generation. He was got by the Cruickshank bull, Canada's Pride 2d, by Imp. Aberdeen Champion, by Barmpton, out of the historic producing cow, Caroline, by Royal Barmpton.

At the International she was one of first prize calf herd, one of four winning second and as get of sire and also a class winner. She is a grand heifer of much substance and constitutional vigor. She has not been pushed since the shows but if taken in hand would make a very good yearling for the fall shows. Her mother is a great producer, being the mother of Duchess of Parkdale (sold for \$500) and The Lad for All, first prize calf at American Royal 1902, sold for \$500 to August King.
